PROFESSIONAL SUMMARY

I am a dedicated Data Scientist and Productivity Manager with over four years of experience in the textile industry and data science. My expertise lies in image processing and computer vision to improve production processes and ensure quality control. I am skilled in data analysis, process optimization, and data visualization using tools such as Power BI and Tableau. I have a proven ability to drive continuous improvement through methodologies like 5S and Kaizen, resulting in higher quality standards and increased productivity. Additionally, I have experience in managing digital transformation projects, developing essential applications, and utilizing data insights for effective decision-making.
